

## DR. RAMZI DALLOUL, DC

### Education

“To fulfill our vision we are forever learning and widening our depth of knowledge about musculoskeletal conditions, sports medicine, and new and innovative ways of living a healthy lifestyle and increasing our strength, stability, and resilience!”

- **Doctor of Chiropractic - Palmer College of Chiropractic - West**
- **Licensed to Practice Chiropractic - State of Colorado**
- **Diplomate - National Board of Chiropractic Examiners**

### Advanced Training In The Most Effective Therapies

“Over the last two decades, great strides have been made in spinal research. It is my responsibility to filter out the ineffective and harmful therapies and to use the best practices of the day.”

#### **Post Graduate Training:**

- **Spinal rehabilitation**
- **Cervical Acceleration/Deceleration Traumatic Injuries**
- **Soft tissue injury evaluation and treatment**
- **Sports Injury Evaluation & Rehabilitation** - *emphasis on walking, running, and cycling conditions*

### Our Vision

Our vision at Community Chiropractic is to Build strength stability and resilience for our community one person at a time!

*At Community Chiropractic we believe that we are naturally zestful, curious, loving, intelligent, and energetic when we are experiencing good health! We believe that our community is only as strong, stable and resilient as it's members. We're not merely satisfied with helping you get through the day, but rather we work towards participating in a bigger picture that is more than just pain management - we're working to build and restore a better functioning person – one that moves better, feels better, and can keep up with an active lifestyle! We work diligently to stay current with the latest research and are forever learning and widening our depth of knowledge so as to improve our quality of life. While we use the latest research supported chiropractic treatment blended with mind-body philosophies, we haven't forgotten that there is an art to delivering health care. That's why we provide the careful compassionate and respectful attention that creates a loving human experience. We look forward to being a part of your life and want to know how we can help you bring your best to our community! Imagine regaining your health and your natural zestful, curious, loving and energetic self... what will you do next? How can we help you bring your best?*

### Conditions Treated

At Community Chiropractic we've learned, grown, and shifted into a new more empowered way of thinking. We offer information to help you create and meet your health goals. Since we believe that health is a balance of structural, chemical, and mental aspects, we offer information and services to best help you.
